

Rebecca has had a spectacular month, having sold not 1, not even 2, but 5 houses! It's going to be a very merry Christmas this year for her family. Each of the houses was sold on a different day, on a street in a different part of town, and each new owner will have a different mortgage price.

- The five families are the Townsends, the family paying \$570 a month, the family paying \$610 a month, the family paying \$580 a month and the family who closed on Friday.
- The Smiths did not purchase the house on Baker St.
- The family moving into the house on Ashman did not purchase their house on Tuesday.
- The Harley's mortgage will not be \$580.00 a month.
- Of the family paying \$600 a month and the family who bought the Baker Street home, one is closed on Saturday and the other is the Geoffs family.
- The family who purchased their home on Tuesday is either the family paying \$580.00 a month or the family paying \$570.00 a month.
- Of the family paying \$590.00 a month and the family moving into the Bookness Drive house, one closed on Wednesday and the other is the Geoffs family.
- The family who purchased their house on Friday is paying less per month than the Smiths.
- The family moving into the home on Collins St is paying 10 dollars less per month than the family who purchased their home on Monday.
- The family who purchased the home on Fairfax Ave is paying more per month than the family that is moving into the home on Bookness Dr.

IF YOU ENJOY LOGIC GRID PUZZLES, YOU'LL LOVE ZEBRA PUZZLES

Zebra Puzzles, sometimes known as **Einstein Puzzles**, are an extraordinary twist on your favorite logic grid puzzles. They use the same brain-teasing logic but in a fun storytelling way that adds a dash of mystery and challenge. Instead of just a regular grid, you get lots of different hints about categories, like color, animal, and place. Your mission? Figure out how all these hints link together. Think of Zebra Puzzles as exciting logic mazes. This type of puzzle promises a riveting mental workout that will keep you engaged while honing your problem-solving and critical thinking skills, making them a must-try for any fan of logic puzzles.
