

Learning a new language is a challenge the local college takes seriously. On top of the mainstream languages, the college has decided to offer four new languages on the new curriculum. The languages are Fwe, Jiddu, Pomona and Tutong. Each class is held in a different room at a different time. Your goal is to determine which room, at which time each language is taught and how many students are participating in each class.

- Of the course with 9 students and the course in room 108, one is the Pomona class and the other starts at noon.
- The Jiddu class starts 2 hours before the class with 9 students.
- Of the course in room 301 and the course with 18 students, one is the Jiddu class and the other starts at noon.
- The class in room 212 is either the class with 23 students or the Fwe class.
- The Pomona class starts sometime before the course in room 301.
- The course with 18 students starts 2 hours after the Pomona class.
- The Tutong class begins at noon.

### IF YOU ENJOY LOGIC GRID PUZZLES, YOU'LL LOVE ZEBRA PUZZLES

**Zebra Puzzles**, sometimes known as **Einstein Puzzles**, are an extraordinary twist on your favorite logic grid puzzles. They use the same brain-teasing logic but in a fun storytelling way that adds a dash of mystery and challenge. Instead of just a regular grid, you get lots of different hints about categories, like color, animal, and place. Your mission? Figure out how all these hints link together. Think of Zebra Puzzles as exciting logic mazes. This type of puzzle promises a riveting mental workout that will keep you engaged while honing your problem-solving and critical thinking skills, making them a must-try for any fan of logic puzzles.
