## Movie Buffs Associated - Anthony Hopkins Logic Puzzle

A five-member panel, determined by a ballot of members of the local Movie Buffs Associated at the Annual General Meeting, select a series of movies, starring a particular actor/actress, to be shown in the Municipal Offices function room each evening from Monday to Friday. The panel of Sally Boyden, Mark Thomson, Jessica Farmer, Laurie Davison and Mary Peters were reelected for 2015.

Last week their choice actor/actress was Anthony Hopkins, and the films chosen - one per member - were Red Dragon (2002), Fracture (2007), The Dawning (1968), Howards End (1992), and Shadowlands (1993). The films chosen were not respective, and neither were they shown in that order, nor in the order in which they were released. Showing time differed each evening. From this information and the following clues, for each member, can you determine who chose which film, the day on which it was shown, and at what time?

1. The showings at $8: 25 \mathrm{pm}$ and $8: 50 \mathrm{pm}$ were on consecutive days.
2. The earliest release was the choice of one of the men, but was not shown at $7: 30 \mathrm{pm}$.
3. The men had showings on even-numbered days, one at 25 minutes past the hour, and one at 30 minutes past the hour.
4. Miss Boyden's choice, Howards End, at 45 minutes to the hour, closed the week.
5. The earliest time showing was Miss Peters' choice but not mid-week.
6. The latest time showing was Fracture.
7. Red Dragon and Shadowlands, which was the choice of one of the women, had consecutive days showings.
8. Mr. Thomson's choice showed at the earliest time after 7:30 pm.

Figure out the favorite ice cream of each boy.

Shirt: black, blue, green, red
Name: Daniel, Joseph, Kevin, Nicholas
Surname: Harris, Miller, Taylor, Young

Ice cream: chocolate, mint, strawberry, vanilla
Age: 7 years, 8 years, 9 years, 10 years

|  | Boy \#1 | Boy \#2 | Boy \#3 | Boy \#4 |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Shirt |  |  |  |  |  |
| Name |  |  |  |  |  |
| Surname |  |  |  |  |  |
| Ice cream |  |  |  |  |  |
| Age |  |  |  |  |  |

$\square$ The oldest boy is wearing the Blue shirt.
$\square$ Nicholas is next to the boy who likes Strawberry ice cream.
$\square$ Harris is at the fourth position.
$\square$ Miller's favorite ice cream is Chocolate.
The youngest boy is next to the boy that is wearing the Green shirt.
$\square$ Young is at the third position.
$\square$ The 9 -year-old boy is exactly to the left of Young.

Kevin is next to the 9 -year-old boy.
At the second position is the boy wearing the Black shirt.
$\square$ Daniel likes Strawberry ice cream.
At the fourth position is the boy who likes Vanilla ice cream.

The 7 -year-old boy is somewhere between the boy
$\square$ wearing the Blue shirt and the 8 -year-old boy, in that order.
$\square$ Nicholas is at the third position.

## If you enjoy locic grid puzzles, you'll love zebra puzzles

Zebra Puzzles, sometimes known as Einstein Puzzles, are an extraordinary twist on your favorite logic grid puzzles. They use the same brain-teasing logic but in a fun storytelling way that adds a dash of mystery and challenge. Instead of just a regular grid, you get lots of different hints about categories, like color, animal, and place. Your mission? Figure out how all these hints link together. Think of Zebra Puzzles as exciting logic mazes. This type of puzzle promises a riveting mental workout that will keep you engaged while honing your problem-solving and critical thinking skills, making them a must-try for any fan of logic puzzles.
