Yesenia, Savannah and Adam, from different age groups, all live within 20 miles from the city centre and share the love of music, but not the same style. From this information and the following clues, determine the age group to which they belong, who loves which style, and where they live.

1. The person who lives within 10 m is not Savannah and loves Jazz.
2. The person who loves Jazz is half as old as the person who lives within 5 m .
3. The person who lives within 20 m lives furthest from Adam.
4. The lovers of Jazz and Classical live 5m apart.

|  | Age Group | Music Style | Distance |
| :---: | :---: | :---: | :---: |
| Yesenia |  |  |  |
| Savannah |  |  |  |
| Adam |  |  |  |

## If you enjoy locic grid puzzles, you'll love zebra puzzles

Zebra Puzzles, sometimes known as Einstein Puzzles, are an extraordinary twist on your favorite logic grid puzzles. They use the same brain-teasing logic but in a fun storytelling way that adds a dash of mystery and challenge. Instead of just a regular grid, you get lots of different hints about categories, like color, animal, and place. Your mission? Figure out how all these hints link together. Think of Zebra Puzzles as exciting logic mazes. This type of puzzle promises a riveting mental workout that will keep you engaged while honing your problem-solving and critical thinking skills, making them a must-try for any fan of logic puzzles.
