

Three friends, two of whom have a pet, live in the same street. From this information and the following clues, for each friend, can you determine who lives in which house, their age, and who has and who does not have a pet?

- 1. Neither girl lives in the odd-numbered house.
- 2. The spaniel does not live at number 24, nor with Sammy.
- 3. Sarah, who is not the oldest, lives furthest from number 15.
- 4. The girl whose age and house number match does not have a pet.
