Benny, Carla and Daniella each picked up a bargain in the January sales with all three items having a reasonable saving on the original selling price - the biggest being \$11.50. From this information and the following clues, for each buyer, can you determine the item they bought, the color and the amount saved on the original selling price?

1. The blue jacket was not bought by Benny.
2. Daniella was pleased to have \$9.00 knocked off the item she bought.
3. The red item had more knocked off than the umbrella.
4. The trousers did not have \$5.00 knocked off and were not bought by Benny or Carla.
