- ☐ Matthew is repairing the car immediately to the right of the vehicle that Kenneth is working on.

☐ The Green vehicle is parked next to the Hatchback type car.

☐ The French manufacturer's car is in the fourth position.

☐ The car that has a problem connecting the wheels to the engine comes directly before Kenneth's project.

☐ Fred is working on a car that is immediately after the vehicle made by the German manufacturer.

☐ A Hatchback type vehicle is situated at one of the extremities.

☐ The Red-colored car is also a German-made vehicle.

☐ The car with an engine problem is situated between Kenneth's project and the vehicle with a shock absorber
- issue, in that order.

☐ The Orange-colored vehicle sits somewhere between the Crossover type and a vehicle manufactured in Britain, in that order.

☐ The Pickup type vehicle is experiencing a brake problem.

☐ The Sedan type car is somewhere between the Orange-colored vehicle and the Coupe type car, in that order.

☐ Somewhere to the left of the car with a Muffler problem, you'll find a Green car.

☐ The Crossover type vehicle is parked next to the vehicle manufactured in Sweden.

☐ Stephen is working on a car that's somewhere to the right of the Purple-colored vehicle.
