

Breakfast at Tiffanys - Logic Puzzle

Four close friends decided to get together one morning for breakfast and conversation. Jenny, whose turn it was to pick the location, decided on a fancy hotel in downtown NYC. Each of the women had a small meal served with a drink (one of the drinks was an Orange Juice) and they talked about their busy week. Their conversation continued longer than expected and each of the women had to rush out of the hotel. Before leaving, they each got another drink to go (one of which was a latte). Can you figure out which woman ordered which drink for breakfast, what they ate, and which drink they took to go?

1. Samantha had a bowl of cereal but not a Latte.
2. The friend who ordered the potato pancakes also ordered a coffee to go but didn't have an ice tea.
3. The woman who ordered the omelet had apple juice to drink but she wasn't Jenny.
4. Of the two friends who ordered the orange juice and the ice tea, one was Jackie and the other was the friend who ordered the french toast.
5. The friend who ordered a bottle of water to go didn't order orange juice.
6. Judy ordered a lemonade to go.

		Drinks				Meal				To Go			
		Orange Juice	Apple Juice	Ice Tea	C Milk	F. Toast	Omelet	Pancakes	Cereal	Lemonade	Water	Coffee	Latte
Name	Jenny												
	Jackie												
	Samantha												
	Judy												
To Go	Lemonade												
	Water												
	Coffee												
	Latte												
Meal	F. Toast												
	Omelet												
	Pancakes												
	Cereal												

Name	Drinks	Meal	To Go
Jenny			
Jackie			
Samantha			
Judy
