# Christmas Dinner
Logic Puzzle

Four people were stranded by bad weather and couldn't fly home to their families for Christmas. With so little notice, none of them had time to prepare a Christmas dinner. With little else to do, each was lucky enough to find a restaurant that was still open and serving. From the clues, determine which person ate at which restaurant, how much they paid for their dinner and what each ordered from the menu.

1. Neither the diner who paid $14.99 nor the one who ate at the Lyon Cafe was Yvette.

2. Neither the one who got at at the Lyon Cafe nor the one who got dined at Irenes Kitchen was the diner who paid $16.99.

3. Of the one who at at the Lyon Cafe and the diner who paid $17.99, one ordered the Pork chops and the other was Leon.

4. The person who dined at Charlies Bar paid 1 dollar less than the diner who ordered the chicken ala king.

5. The diner who ordered the pork chops was either Yvette or the one who ate at Irenes Kitchen.

6. Isac ordered the chicken ala king.
