

## Christmas Meal - Logic Puzzle

After attending Church services, Rose and her brothers Tom and Sam gathered together at a restaurant. The restaurant serves three course meals. Each have a choice of soup, a meat course and a dessert. No two siblings had the same soup, meat course or dessert. From this information and the following clues, for each person, can you determine their soup, meat course and dessert?

1. Rose had neither the first choice soup nor dessert.
2. Tom had Chicken Breast but not the second choice dessert.
3. The sibling who had the first choice dessert enjoyed the third choice meat course.
4. The second choice soup was not had by Tom or Rose.

		Soup			Meat			Dessert		
		Minestrone	Navy Bean	French Onion	Beef Steak	Chicken Breast	Fish Fillet	Ice Cream	Apple Pie	Fruit Cake
