

Dance Night - Logic Puzzle

Three couples took part in the Waltz, Foxtrot and Paso Doble disciplines of the dance competition and each discipline was won by a different couple. Points, out of 10, were awarded by a panel of three judges. From this information and the following clues, for each couple, can you determine who won which discipline, the number of points scored by the winners in each discipline, and the overall number of points scored in each discipline?

1. Couple number 3 scored less points than the winners in the discipline with the second lowest overall number of points, but more than couple number 1.
2. The Paso Doble winners scored more points than the Foxtrot winners but less points than the Waltz winners.
3. The lowest overall number of points were awarded in the Foxtrot discipline.
4. Couple number 2 were not in the discipline with the highest overall number of points.

		Discipline			Winner Points			Overall Points		
		Waltz	Foxtrot	Paso Doble	30 points	29 points	28 points	84 points	82 points	81 points
