

Date Night - Logic Puzzle

Tom, his date and three other couples met at his house before the prom to have their pictures taken. As it happened, each person wore a different color, including a girl with a red dress. Robyn and the three other girls each received from their dates different flowers as well. From the clues below identify each couple, the girls flowers, and the color of the girl's and boy's clothing.

1. Neither the girl in pink nor Kevin's date had the roses.
2. Ricky's date had never met the girl who had carnations.
3. The fellow who wore the white tuxedo gave his date orchids.
4. Becky's date, who wasn't John, wore a black tuxedo.
5. The fellow in the gray tuxedo did not go with the girl in yellow who had the camellias.
6. Kim and Holly, in some order, received roses and camellias, but not from John.
7. The girl in lavender didn't receive the roses nor the carnations.
8. Kim's date didn't wear the blue tuxedo.
