

## Gone Golfin' - Logic Puzzle

A research student was given the task of finding the top winners of a local golf tournament each year between 1980 and 1983. The research led him to discover that his own father had been a champion. Using the clues, for each year, determine the winning golfer, his score and and his best hole for each game.

1. The golfer who scored a 60 was either **Walter Branbeck** or the man who won in 1983.
2. The golfer who won in 1982 was either the one who scored a 59 or Sam Elliot.
3. Of the golfer who who's best hole was the 17th and Thomas Bracken, one won in 1982 and the other shot a 63.
4. The golfer who won in 1980 got a hole in one on the 11th.
5. Sam Elliot won his tournament sometime before the golfer who scored a 63.
6. The person who scored a 60 won his tournament 1 year after the person who came in first on hole 14.

		Golfer				Score				Best Hole			
		Sam Elliot	Thomas B.	Victor Hugo	Walter B.	56	59	60	63	2nd	11th	14th	17th
Year	1980												
	1981												
	1982												
	1983												
Best Hole	2nd												
	11th												
	14th												
	17th												
Score	56												
	59												
	60												
	63												

Year	Golfer	Score	Best Hole
1980			
1981			
1982			
1983
