

## Movie Buffs Associated - David Niven - Logic Puzzle

Every week since its inauguration, the local Movie Buffs Associated have shown a series of movies chosen by a selection panel, determined annually by a ballot of members, in the Municipal Offices function room each evening from Monday to Friday, and starring a particular actor/actress. The selection panel for the current year is Sally Boyden, Mark Thomson, Jessica Farmer, Laurie Davison and Mary Peters.

Last week their choice was David Niven, and the films chosen - one per member - were The Bishop's Wife (1947), The Guns of Navarone (1961), Murder by Death (1976), Bonjour Tristesse (1958), and The Prisoner of Zenda (1937) but not respectively, and neither were they shown in that order, nor in the order in which they were released. Showing time differed each evening. From this information and the following clues, for each member, can you determine who chose which film, the day on which it was shown, and at what time?

1. Of the two releases showing on the hour, one was The Prisoner of Zenda and the other was Laurie's choice.
2. Sally chose the release which was 10 years before that of Miss Farmer's mid-week choice.
3. The latest release showed on Thursday.
4. Mark and Laurie each had an odd-numbered day's showing.
5. Of the women's consecutive days showings, Mary's had the earliest time.
6. The latest time showing was on Monday.
7. Bonjour Tristesse closed the week with the earliest time showing.
