

Pasta Night - Logic Puzzle

A group of friends gathered together at Louigi's Italian Restaurant for their annual "Taste of Italy" night. As it was the first time any of them had been to this particular restaurant, they decided among the 5 of them to each get a different dish and compare notes at the end. Your task is to determine which person got which dish, which includes a type of pasta and a type of sauce, as well as the price each paid for their meal.

1. The friend who ordered the Ravioli paid 3 dollars more than the friend who ordered Rotini.
2. Krissy paid more than her friend who ordered Spaghetti.
3. Johns meal cost more than his friends, who chose butter garlic sauce.
4. The friend who chose the Olive Oil and crushed pepper sauce paid more than the the person who ordered the Spaghetti Pasta.
5. The friend who tried the butter garlic sauce was either Krissy or the one who ordered vermicelli.
6. Oliver paid 3 dollars more than the one who ordered rotini.
7. Neither the friend who chose bolognese sauce nor the friend who paid \$13.99 was the one who ordered fettuccine.
8. Oliver was either the friend who chose the Meat sauce or the one who ordered fettuccine.
9. Of the friend who ordered ravioli and Gregg, one paid \$13.99 and the other chose the butter garlic sauce.
10. The friend who paid \$9.99 didn't choose bolognese sauce.
11. The one who ordered fettuccine was either John or the friend who paid \$11.99.
