

## Show and Tell - Logic Puzzle

Sara had Quadruplets. They were all in second grade now and all in different classes. Tomorrow is Show & Tell at school so there was a flurry of activity this afternoon while they tore their rooms apart, deciding what to bring in to share with their class. After a few heated arguments when two siblings wanted to bring in the same thing, all decisions were made and the household was back to more or less peaceful coexistence by suppertime. Determine the name of each quadruplet, what each brought in for Show & Tell the next day, the name of each one's teacher, and at what time each class had Show & Tell (it was different for each class, the times were 10:00 am, 11:00 am, 1:00 pm, and 2:00 pm).

1. The vacation pictures weren't shown by Kelly.
2. Show & Tell in Mr. Eastman's class was three hours after the event in Kelly's class.
3. Shelly shared her Show & Tell an hour after Mrs. Harmony's class.
4. The quilt was shown in Mrs. Spade's class but not in the morning.
5. Peter's Show & Tell was the toolbox that he made with his Dad.
6. The four siblings, in no particular order, were Holly, the one in Mr. Knight's class, the one who showed her ferret, and the one whose class had Show & Tell at 1:00 pm.

		Show N Tell				Teacher				Time			
		Ferret	Quilt	Toolbox	Pictures	Mr. Eastman	Mrs. Harmony	Mr. Knight	Mrs. Spade	10:00 am	11:00 am	1:00 pm	2:00 pm
Name	Holly												
	Kelly												
	Peter												
	Shelly												
Time	10:00 am												
	11:00 am												
	1:00 pm												
	2:00 pm												
Teacher	Mr. Eastman												
	Mrs. Harmor												
	Mr. Knight												
	Mrs. Spade												

Name	Show N Tell	Teacher	Time
Holly			
Kelly			
Peter			
Shelly
