

The Enchanted Forest - Logic Puzzle

Three little girls - Maddie, Clare, and Sophie - having just been read their favorite bedtime stories in that order by their mother, fell into a deep sleep and found themselves in the Land of Dreams where there was an Enchanted Forest, in the middle of which stood a great tree known as the Wishing Tree. If they touched it and made a wish they could become the fairytale character from their story but they were advised by the Good Fairy that the Wishing Tree was old and it usually got it wrong on any day that ended with a 'y'. Today would be no different so she said they should each have a second choice and make that their wish. Each chose the character from a sibling's story, but none chose the same sibling. From this information and the following clues, for each girl, can you determine her age, the wish she made and the fairytale character she became?

1. The three girls are Maddie, the eight year old and the one who wished to be Goldilocks.
2. The Ball and the glass slipper appealed to Sophie in her story.
3. Alice in Wonderland was not wished for by Maddie or Clare.
4. Three bears featured in Maddie's story.

		Age			Wish			Became		
		6 years	7 years	8 years	Cinderella	Alice	Goldilocks	Cinderella	Alice	Goldilocks
Girl	Maddie									
	Clare									
	Sophie									
Became	Cinderella									
	Alice									
	Goldilocks									
Wish	Cinderella									
	Alice									
	Goldilocks									

Girl	Age	Wish	Became
Maddie			
Clare			
Sophie
