

Weddings - Logic Puzzle

Five couples, after varying lengths of courtship, decided to get married and, for their wedding in the Summer, chose a day corresponding to the day on which they were engaged, and a time corresponding to the number of years during which they had been courting. **No man married a girl with the same initial and no man or girl got married in a town with the same initial.**

From this information and the following clues, can you determine the names of the couples, where they were married, the day on which they were married and the time at which they were married?

1. The couple who got married in Coldburn had the same initials as the couple who got married in Parville.
2. One of the couples had rhyming names.
3. The Marsdale ceremony was held at 2:00 pm.
4. Peter did not marry Sally in Parville.
5. Either Mary or Monica, who had a longer courtship, was married on Monday.
6. The couple who had been courting longest were married in Lamberton.
7. Neither John nor Mary were married in Salmington.
8. The couple who were married on Thursday courted for the shortest period of time.
9. James and his bride were married in Parville at 3:30 pm.
10. The couple who were married in Coldburn were married first.
11. Jessie and her groom were married mid-week after a three year courtship.
12. The 4:00 pm ceremony was held on Tuesday.
